Featured name

Excellent Move-Down, Single-Level Homes with House Widths of 40' and 50'

This feature offers a bonus with two product lines from Shea's Trilogy at Ocala Preserve. These innovative floor plans offer a whole lot of function for 1,449 to 2,486 square feet. These homes are well designed on the interior with generous great rooms that orient to the outdoors, large laundries and hobby spaces, and glass in all the right places. Shea offers their 3D floor plan opportunity on the 50-foot wide product for even

more customization. The visual expansiveness in these great rooms is very impressive for 40' and 50' wide homes.
